

NAME

_Fork – create a child process

LIBRARY

Standard C library (*libc*, *-lc*)

SYNOPSIS

#include <unistd.h>

pid_t *_Fork*(void);

DESCRIPTION

This function is equivalent to **fork(2)**, except that fork handlers registered with **pthread_atfork(3)** are not called.

STANDARDS

POSIX.1-2024.

HISTORY

POSIX.1-2024.

SEE ALSO

fork(2), **vfork(2)**
