

NAME

beep – ring the bell

SYNOPSIS**beep** ?*percent*?**DESCRIPTION**

The **beep** command rings the keyboard bell. *Percent* is relative to the base volume of the keyboard bell and can range from -100 to 100 inclusive.

If *percent* is nonnegative then the bell volume is:

$$\text{base} - [(\text{base} * \text{percent}) / 100] + \text{percent}$$

If *percent* is negative then the bell volume is:

$$\text{base} + [(\text{base} * \text{percent}) / 100]$$

The default *percent* is 50.

EXAMPLE

beep
