

NAME

docker-volume-inspect - Display detailed information on one or more volumes

SYNOPSIS

docker volume inspect [OPTIONS] VOLUME [VOLUME...]

DESCRIPTION

Returns information about one or more volumes. By default, this command renders all results in a JSON array. You can specify an alternate format to execute a given template is executed for each result. Go's <https://pkg.go.dev/text/template> package describes all the details of the format.

OPTIONS

-f, --format="" Format output using a custom template: 'json': Print in JSON format
'TEMPLATE': Print output using the given Go template. Refer to <https://docs.docker.com/go/formatting/> for more information about formatting output with templates
