

NAME

clamconf – Clam AntiVirus configuration utility

SYNOPSIS

clamconf [options]

DESCRIPTION

clamconf displays the values of configuration options.

OPTIONS

-h, --help

Display help and exit.

-V, --version

Display software version and exit.

-c DIR, --config-dir DIR

Search for configuration files clamd.conf and freshclam.conf in DIR.

-n, --non-default

Only print non-default settings.

-g CONFIG_NAME, --generate-config=CONFIG_NAME

Generate example configuration file.

CREDITS

The idea of this tool is based on Postfix's postconf. clamconf was created under pressure from Tomasz Pap-szun ;-)

AUTHOR

Tomasz Kojm <tkojm@clamav.net>
