

NAME

docker-image-inspect - Display detailed information on one or more images

SYNOPSIS

docker image inspect [OPTIONS] IMAGE [IMAGE...]

DESCRIPTION

Display detailed information on one or more images

OPTIONS

-f, --format="" Format output using a custom template: 'json': Print in JSON format
'TEMPLATE': Print output using the given Go template. Refer to <https://docs.docker.com/go/formatting/> for more information about formatting output with templates

--platform="" Inspect a specific platform of the multi-platform image. If the image or the server is not multi-platform capable, the command will error out if the platform does not match. 'os[/arch[/variant]]': Explicit platform (eg. linux/amd64)
